

On July 27, 2016 G. Gyurjyan, director of “Erebuni” Historical & Archaeological Museum-Reserve, awarded certificates to the employees of the restoration department Tatevik Davtyan and Seda Gevorgyan for their participation in the practical courses, organized in June-July by the specialist of CRAterre (International Center of Earthen Architecture) Mr. M. Hajmirbaba and the professor of Lyon National High School of Architecture Mrs. S. Monnot.

The practical courses referred to the methods of preparing mud brick and to its material. Such kind of trainings have a great importance on the eve of 2800 anniversary of Erebuni-Yerevan /2018/, for the implementation of the extensive restoration project in the Erebuni archaeological site.
