

On December 12, 2016 the director of State Hermitage Museum M.Piotrovsky visited Erebuni museum, within the official visit to Yerevan. Accompanied by the director of the museum G.Gyurjyan, M.Piotrovsky with his son Boris Piotrovsky got acquainted with the temporary exhibition entitled as “On the traces of Boris Piotrovsky”, dedicated to the outstanding scientist, academician of the Academy of Sciences of USSR and ASSR Boris Piotrovsky.

He explained all the information displayed on the posters dedicated to Piotrovskiy’ s scientific activities, particularly to Karmir Blur with great pleasure . He also presented the stories and pictures concerning his family and sons. The articles, books and jugs unearthed by B.Piotrovsky during the excavation in Karmir blur were exhibited in the separate vitrines. All these artifacts were kept in the fund and removed especially for the occasion.

Then, M.Piotrovsky had a discussion with the employees of the museum, officials, architects, archaeologists and students from the universities. G.Gyurjyan, the director of the museum, welcomed and gave to the honorable guest a bronze replica statuette of a horse-head, found from Karmir blur by B. Piotrovsky. With the greetings also came up many scientists, who had an opportunity to deal with the great scientist “Boris Piotrovsky”.

Among the participants were the students of Piotrovsky, who are now famous scientists of Armenia. The director of the State Hermitage expressed his gratitude for the warm reception and for wonderfully-organized exhibition then presented to the museum books from the State Hermitage. M.Piotrovsky presented the exhibition halls of Hermitage dedicated to the Urartu and the Armenian culture with the help of slides .
